

KIMONOS FOR STREET WEAR

Chicago Club Women Indorse Them For Shopping and Theaters.

The Japanese kimono and the flowing robes worn by the orientals, ornamented with exquisitely embroidered flowers and birds—these are the ideal garments for women from the artistic standpoint. Members of the North Side Art club, Chicago, reached this conclusion after Dr. Yamel Kin, a native Chinese, had drawn parallels between the crude, abrupt lines of the tailor made gown and the graceful curves of the kimono during a talk on "Chinese Women" the other forenoon, says the Chicago Tribune.

The speaker wore the native costume, and her hearers went into ecstasies over the delicate colorings and the graceful lines of the loose garment. Dr. Yamel Kin urged that the dress of the oriental women is practical as well as beautiful, and after telling why it was so the American women agreed that there is no dress quite like the kimono. They urged that American women should adopt the dress of the orientals and appear in kimonos on all occasions—on the street, in their homes and at the theaters.

"Wouldn't the kimono be cold in winter time?" was asked.

"Cold?" echoed Dr. Yamel Kin. "No; not cold. You may put on as many kimonos as you want to, the one over the other, until you have enough on to keep you warm."

"It would be a good idea if women would adopt the Japanese kimono for general wear," declared Mrs. La Verne W. Noyes, president of the club. "They could be worn on all occasions, and then the pockets in the sleeves would be a great convenience to the Chicago women. They are large enough to hold samples and purse, almost everything."

Mrs. F. W. Tracy thought they would be excellent for shopping, and Mrs. R. L. Greenlee declared that the location of the pockets would do much to protect women against holdups and pickpockets.

STARTLING EVIDENCE.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bennington, Va. serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by W. A. Allen and Geo. W. Fisher, druggists. Trial bottles free, regular sizes 50c, and \$1.00.

College Yells Revised.
[A movement to revise and censor the college yell has been proposed.]

The raucous yell
Of old Cornell
And the whooping yell of Yale,
The Harvard howl
And the Princeton growl
To a milder tone must pale.

The U. C. shriek
And the Yassar squeak
And the Hopkins ribald blare;
Northwestern's yell
Of a lion whelp
Shall be softer on the air.

The Wellesley squeal
And the Stanford peal
And the rah, rah of old Knox;
The West Point cry
And the Plattsburgh yell
Must eliminate their shocks.

And the hoop-de-doo
Of the Oberlin
Shall be made more circumspect.
But the college yell
Will sound like—well,
It will hold more intellect!

—Chicago Tribune.

DRIVEN TO DESPERATION.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c, at W. A. Allen's and Geo. W. Fisher's drug stores.

Duke of Manchester's Purchase.
Considerable has been written about the Duke of Manchester's new purchase, but few people know that Lorenzo Henry, who sold the castle directly to the Duke of Manchester, is one of the oldest friends of the young duchess, and when she was a young girl he stayed with her parents at her home in Cincinnati, says the London Outlook. Mr. Henry is the son of the former owner, who built the Irish castle in Connemara.

The Daily Times-Union and THE News one year for \$6.

ROUND THE THRONES.

King Emmanuel is one of the greatest living numismatists and possesses the finest private collection of coins in the world.

King Edward has become exceedingly conservative in matters of dress since his accession to the throne of Great Britain.

Although Joachim Albrecht, prince of Prussia, belongs to the generalstab, he cares very little for military matters. His ambition is to be known as a composer.

The following are said to be the names of the sultan of Jolo's wives: Scant of Lilies, Heart's Desire, Honey of Life, Dancing Sunbeam, Blush of Morning, Oasis in the Desert, Moon Upon the Waters, Song of Nightingales, Whisper of the West Wind and Rose in Bloom.

You Know What You Are Taking
when you take Grove's Tasteless Chili Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No Pay, 50c.

HOLLY AND MISTLETOE.

How the House Should Be Decked With Christmas Greens.

It would not be Christmas without a wreath of holly in the window or some touch of green about the home. The hall is the first place to be considered in decoration, as this gives the keynote to the rest of the house, says the Philadelphia Times. First and foremost is the mistletoe, or, as it is used to be called, the "kissing" bough. This need not necessarily be of mistletoe alone, as holly can well be mixed with it. But it is correct to tie bows or true lovers' knots of various colored ribbons on to the stems. The larger this bough can be the better, and it should hang somewhere in the center of the hall.

If there is a looking glass hanging against the wall (and this is a great improvement to a small, narrow hall, as it gives an idea of space), let it be encircled by a loose holly wreath. At the foot of the stairs put a tall earthenware jar of artistic shape, and arrange in it tall boughs of holly and spruce.

The holly can be turned into a great variety of decorations for the home. The wreath is by far the most popular of the decorative designs. It is generally tied with a smart bow of scarlet ribbon. Frequently a star of red immortelles is set within the wreath.

The holly branches, with plentiful red berries showing against the glistening leaves, make an artistic garniture for the house. The branches are a graceful ornamentation for pictures, cornices and doors. In halls they are particularly effective when there is a fireplace that may be used as a background.

A gilded basket (you can gild it yourself at small cost) filled with holly and tied with broad, scarlet satin ribbon would make an effective centerpiece for the Christmas dinner table. A bunch of holly will of course crown the Christmas pudding, but a bunch of mistletoe must be tied under the chandelier in the parlor.

There are people who every Christmas put on great airs about their "real English mistletoe," but our American mistletoe answers all practical purposes, and the luck it brings and the salutation it invites are just as genuine as any foreign article. Every year the south is sending large quantities of mistletoe to market.

How to Send Christmas Gifts.
Never send a Christmas gift without your card or some means of identification. People do not like to have their pleasure tempered with mystery, says the New York World. Engraved cards are always in better taste than those written by hand. Written messages on an engraved card are permissible when sending a gift to a relative or intimate friend. A greeting, as "Merry Christmas" or "Season's Greetings," when used is written on the upper part of the face of the card. When simply a date is used, as "Christmas, 1903," write it in the lower left hand corner. It is customary for gentlemen to accompany their gifts with engraved cards bearing no inscription. Christmas gifts should always be neatly wrapped in perfectly fresh paper and daintily tied with a nice bit of string or narrow ribbon. In sending a gift in town, even to one's next door neighbor, employ a messenger or a servant; never a member of the family if it can be avoided. Always plan as nearly as possible to have a Christmas gift reach its destination on Christmas day. Better the afternoon or evening than the night before.

How to Make Cranberry Jelly.
Take two quarts of cranberries and boil until very soft. Strain out the juice and add as much sugar as there is juice. The juice will be more in the form of a thick pulp, for you have strained it not through a cloth, but through a coarse sieve. Now boil for twenty minutes, add a tablespoonful of gelatin dissolved in cold water and pour into a mold. Set away to cool. Send to the table turned out of the mold and garnish with meringues. For the meringues beat the whites of four eggs until very stiff. Add a third of a teaspoonful, scant, of cream of tartar. Whip again. Add a cup of sugar, scant, and a little vanilla. Press through a tube upon oiled paper and bake in an oven so slowly as only to dry them for half an hour.

How to Keep Honey.
To keep honey, either extracted or comb, put it where it is dry and warm, even hot. It will not hurt it to be in a temperature of even 100 degrees. If extracted honey is not thick enough tie a thin cloth over the top of the vessel and keep where it is not only warm, but airy, and it will become much thicker. Many housekeepers put honey in the cellar, as honey readily attracts moisture.

How to Make Christmas Lemon Tart.
To make Christmas lemon tart use two cups sugar, one cup butter, six eggs, two lemons, two large tablespoonfuls of brandy, one teaspoonful grated nutmeg. Beat butter and sugar together, add the whipped yolks, the juice of one lemon and the rind of two, the nutmeg, the brandy and the stiffly beaten whites of the eggs. Bake in small pastry shells and use no top crust.

How to Make Razor Paste.
Levigated oxid of tin, prepared putty powder, one ounce; powdered oxalic acid, a quarter ounce; powdered gum, twenty grains. Make into a stiff paste with water and evenly and thinly spread it over the strop.

How to Bake Mackerel.
Split the fish, remove the backbone, lay some veal stuffing on each, roll up and bake in a buttered pan and in a moderate oven for about half an hour.

State News

Fifteen Georgians arrived in Umatilla last week. They go there to settle permanently, engaging in farming.

While Miami has the largest dock on the Atlantic coast south of New York, preparations are now under way for extending it south a distance of 1750 feet. This is to be done with the expectation that the increased business will demand this improvement.

The magnificent grove property known as the Nocatee grove, for the past year owned by Mr. Phifer of Gainesville, has been bought back by Colonel T. J. Watkins, who last year sold a half interest in the same grove to Mr. Phifer for \$40,000. Mr. Phifer and family have returned to Gainesville and Colonel Watkins and family will soon move to Nocatee.

While the people of the Indian River section are hauling in dollars for their big pineapple and orange crops, they should not forget the fact that there is money in growing potatoes, beans, tomatoes, lettuce, radishes, celery, cucumbers, peppers, mint, parsley, etc. One acre, well attended to in the winter, is far better than planting out five acres and giving the crop little or no attention. The Turnbull hammock, just north of Titusville, is said to be one of the finest bodies of land in this state, and all it wants is the right kind of men, with a careful and intelligent system, to make a success of vegetable growing there. For the past month some of our vegetable growers have been shipping tomatoes to the markets. Why not grow other things? —Titusville Advocate.

The interesting car, "Cuba on Wheels," which has been standing upon the Tampa Bay track for some weeks, is almost ready for exhibition, and will be placed upon the side track at Franklin and Polk streets about the 10th of December. The admission will be 10 cents and part of the proceeds will be given to the Children's Home. Mr. Ramseur, the owner and manager of the car, is in the city now and will make one more trip to Cuba before the exhibition. The car will leave Tampa upon a five-years' trip throughout the United States. It is well worth visiting. Anyone who does not know the resources of the wonderful island will be surprised and delighted with the fine display of products and manufactured articles. —Tampa Tribune.

BOND ALLOWED BENNETTS.

In the preliminary hearing at Starke of the three Bennett brothers, charged with the killing of H. O. Richard a few days ago, Richard Bennett was discharged, and John S. Bennett and Henry Bennett were held for trial on the charge of manslaughter, and required to give \$6,000 bail each for appearance for trial. The bail was at once furnished, and all released.

SMALL TOWN DESTROYED BY FIRE.

Nocatee, a small lumber town five miles south of Arcadia, was swept by flames Thursday night. The principal business houses were consumed by the angry flames, the loss amounting to thousands of dollars. The immense sawmill plant of W. G. Welles & Co., together with several million feet of lumber, were burned to ashes. It is understood that no insurance was carried. The Atlantic Coast Line depot, several boxcars and six flatcars were also consumed. Several other buildings were burned.

AFTER HARD WOOD LANDS NOW.

Capitalists are in Florida and other Southern States buying up all of the woodlands where they can be obtained at a low figure. The immense pine forests for turpentine and lumber purposes having been bought up, these moneyed men now seek the hard woods of the hammocks for transportation to Northern cities to be converted into furniture and fine railroad coaches. Saw mills are to be located near points where the hard wood is available. There is evidently much more money in these timbered lands than many owners imagine. It is also evident that all kinds of timber is becoming scarce in the Northern States, and hence the seeking of timber in the Southern States.

COUGHING SPELL CAUSED DEATH.

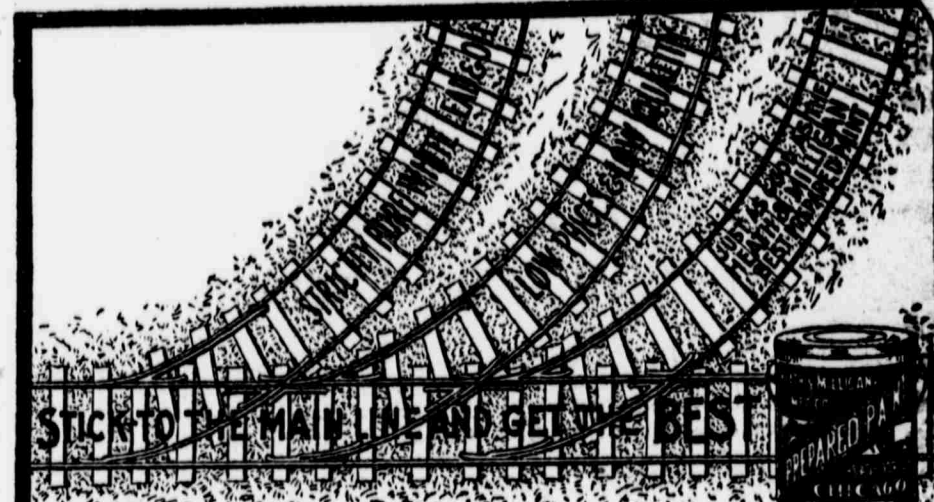

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation." St. Louis Globe-Democrat, Dec. 1, 1901. Ballard's Forebround Syrup would have saved him. 25c, 50c and \$1.00.

OUR ADVERTISERS

Names of People Who Patronize The News.

Following is a complete list of those whose advertisements will be found in THE NEWS. As we endeavor to keep out of our columns all irresponsible persons, we have no hesitancy in recommending those whose names are found in the following list:

GROCERS.
W. W. Alcott
